YOU COVERED

INSTALL

PROTECT

MAINTAIN

Pavetuf® is a range of products to enable the installation and maintenance of all your hard landscaping needs. The Pavetuf range provides tools and products that you may need to cut, install and join your paving, through to protecting and cleaning it.

INSTALL

GETTING THE JOB DONE RIGHT!

To assist with the installation of paving we offer tools (squeegees and cutting blades), priming slurry (to help secure the paving onto its mortar bed), three different jointing options (to joint various paving types, with different traffic and for alternate aesthetics), adjustable risers (for the installation of paving and composite or wood decking), edgings (to form a structural restraint or separate various landscaping materials), and drainage channels (providing a decorative grate option).

PROTECTING YOUR INVESTMENT!

Pavetuf Sealers are non-toxic, technically advanced and water-based which are solvent-free, making them an environmentally friendly option. They have been designed to delay the penetration of water and oily liquids allowing time to clean up any spillage to prevent staining of the hard landscaped area. With the added benefit of being breathable, not only can they be used to seal your paving before installation, they can also be used immediately after.

PROTECT

EASY CLEAN!

Like anything, we love to keep our new purchases pristine and your garden and driveway is no different. The Pavetuf range of cleaners boasts twelve different options, from every day to heavy duty cleaners and specific solutions for different types of landscaping materials and staining. Whether you want a general tidy up or are trying to remove stubborn stains, the Pavetuf range of cleaners has you covered.

MAINTAIN

PAVETUF INSTALLATION PRODUCTS

PAVETUF PRIMING SLURRY 17KG TUB

Pavetuf Priming Slurry is a polymer and cementitious slurry, specifically formulated to provide an exceptional bond between a new mortar base and porcelain or stone paving.

- Quick and easy to use
- Mix with water
- 12m² coverage for a tub.

PAVETUF PRIMING SLURRY 25KG BAG

Our popular Pavetuf Priming Slurry is now available in an eco friendly 25kg bag.

- 19m² coverage for a bag
- Eco friendly alternative to the 17kg tub option
- More eco-friendly with reduced carbon.

PAVETUF SQUEEGEE

The Pavetuf Squeegee is the ideal tool to apply the Pavetuf Jointing Mortar and Pavetuf Jointing Compound.

PAVETUF PORCELAIN BLADE

A specialist blade designed to cut porcelain. Blade specification:

- 300mm (diameter) x 2.8mm
- 20mm diameter bore
- OSA approved
- EN 13236
- Recommended RPM 3100 up to a maximum of 5100.

PAVETUF RESIPOUR

ResiPour is a UV stable, water-based resin designed for bonding and stabilising non-trafficked loose garden stone and decorative aggregates holding them in place.

- Suitable for flower pots and borders
- Simple and easy to apply with a watering can or airless sprayer.

JOINTING OPTIONS

Finish off your porcelain, stone and concrete paved areas, using one of our Pavetuf jointing products. See the options below and choose the right Pavetuf jointing product for your job, depending on the sub base of the paving, application and desired look.

Please refer to our comparison chart to help select the appropriate jointing product for the job.

PAVETUF JOINTING COMPOUND 15kg

Easy to apply and suitable for installation in all weather conditions.

- Coverage 15m²*
- For joint widths 5mm-20mm
- No Waste
- Durable
- Inhibits Weed Growth
- Permeable

* Coverage based on paving that is 600mm x 600mm, with 20mm deep/10mm wide joints.

PAVETUF JOINTING GROUT 9kg

Easy to apply tile grout, ideal for use with Vitripiazza porcelain products.

- Coverage 21m²*
- For joint widths 1-15mm
- Water Repellent
- Stain Resistant
- Rapid Setting
- Colour Fast Technology

* Coverage based on paving that is 600mm x 600mm, with 20mm deep/5mm wide joints.

PAVETUF JOINTING MORTAR 15kg

A professional, rapid setting Jointing Mortar which provides a contemporary finish.

- Coverage 7m²*
- For joint widths 5mm-50mm
- High Compressive Strength
- Walk on in 1 hour
- Drive on in 4 hours
- Low Shrinkage

* Coverage based on paving that is 500mm x 500mm, with a joint width of 10mm and a joint depth of 30mm.

Contact us for current lead time

BENEFITS

Easy to install: Quick and easy to install and can be moved repeatedly, so if you move you can take your products with you.

Versatile: Can be used with a variety of different landscaping materials including wood, porcelain paving, concrete paving, natural stone and composite decking boards, so one or a combination of any of these can be integrated into designs, with the same installation method.

Minimise tread noises: Designed with the right plastics and rubber materials to limit the noise and also to keep the products firmly in place.

Fast drainage: The joints created by the risers, allows water to seep through and then be diverted.

Big load capacity: Can take 800 to 1.500 kilograms, which is more than necessary, but it is our way of offering safety and security.

Handy levelling: Our Adjustable Riser Supports not only adjust to a certain height, they also adapt to the ground when used with the slope correction or the self-levelling accessories.

Recyclable: Our Adjustable Risers are made from 100% recycled plastic (polypropylene) and are 100% recyclable.

Hides services but retains easy access for maintenance:

The elevated system promotes good airflow and allows pipes, cables, services and drainage channels to be hidden away out of sight and gives easy access for maintenance.

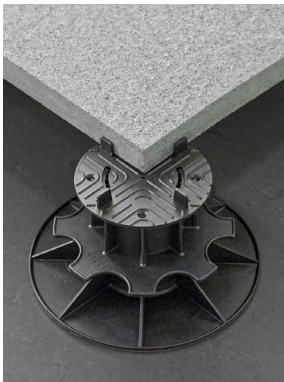

Use on balconies, terraces or flat roofs: Paving and decks can be applied to these areas with the use of our innovative Top Plate, C3/4T BT, due to its self-adhesive layer that gives extra fixing support that is crucial for these areas to help reduce the risk of wind lift.

STEPS

1 CHOOSE YOUR RISER BASE

PAVETUF ADJUSTABLE RISER BASES

First of all select the correct base that goes up to your required height.

2 SELECT THE RIGHT TOP PLATE

PAVETUF TOP PLATE

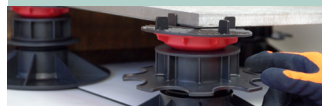

All Top Plates fit into any base of side base. Choose the one to suit your application.

2 ADD ACCESSORIES

PAVETUF ACCESSORIES

- Side bases for edge installation
- HA5 Self Levelling for up to 5% correction of uneven surfaces
- HS2 Slope Corrector for small slope adjustments from 2% to 10%
- Edge Finishing Plates to help create a fascia
- F30 Extension to raise the height where needed
- Rubber accessories to aid noise reduction.

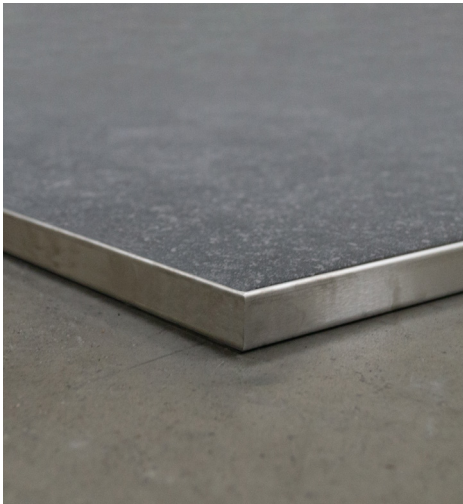

PAVETUF EDGINGS

Ideal for creating detail to your hard or soft landscaping areas, from beautiful borders to stylish driveways.

PAVETUF STAINLESS STEEL EDGINGS AND INLAYS

Pavetuf Stainless Steel Edgings create a decorative profile for the edge of 18-20mm porcelain and stone paving. Designed for use externally, with matching internal and external corner pieces. Ideal for creating a clean contemporary finish on raised patio areas, steps, swimming pools and borders.

PAVETUF STRAIGHT ALUMINIUM EDGING

Pavetuf Straight Edge is the perfect choice for edging our Luxigraze Artificial Grass, lawns, borders, flower beds and pathways giving a neat garden appearance with perfect straight lines, crisp corners, gentle curves and shapes.

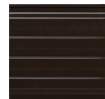

WHY USE ALUMINIUM EDGING:

- They are strong, long lasting with a clean edge and easy to install.
- They will save hours of future edging work and do not require painting or staining as they do not rust.

WE HAVE 2 STRAIGHT EDGE OPTIONS:

- Straight Aluminium Edging.
- Heavy Duty Straight Aluminium Edging.

Both options come in a large variety of lengths and joining pieces, for full detail of choices please refer to www.pavetuf.co.uk.

PAVETUF EDGE RESTRAINTS

Our Edge Restraints have height options available from 18mm to 150mm, which are extremely strong and highly resistant to heat. The joining system ensures each length joins to the next for complete precision, ideal for creating stylish edges and contrasting designs in conjunction with our Resiscape Resin Bound Aggregates. Available in nine different depths and thicknesses to suit different applications.

PAVETUF DECORATIVE CHANNEL DRAIN

Pavetuf Decorative Channel Drain offers a lightweight, durable and easy to install drainage system. With aesthetically beautiful decorative grates that come in a choice of three colours and an added option of a cast iron finish, to enhance your paved area.

BENEFITS

- Quick fix design - Component parts snap together easily for speedy installation.
- UV inhibitors prevents fading and cracking from the sun.
- Quick fix design - Component parts snap together easily for speedy installation.
- Channel can be cut to length and joined simply with the coupling.
- Grates and Channel are durable, lightweight and easy to install.
- Recyclable.
- System components are chemical resistant and rustproof.
- Optimal drainage performance is ideally suited to light duty applications.

- Easily attaches to mains drainage.
- Catch Basins and Filters help prevent dirt and debris clogging up the drainage system.
- Grates are removable for quick drain inspection or maintenance.
- Load Class A15/B125 in accordance with EN1433:2003.
- Maximum load 4.0 t (A15 for channel only).
- Maximum load 9.5t (B125 in combination with grate, channel, surrounded by concrete).

PROTECT IT WITH PAVETUF SEALERS

Protect your paving with our high-quality range of sealant products.

Pavetuf sealants are non-toxic, technically advanced, water-based sealants which are solvent-free, making them an environmentally friendly option.

They have been designed to delay the penetration of water and oily liquids allowing time to clean up any spillage to prevent staining of the hard landscaped area.

With the added benefit of being breathable, not only can they be used to seal your paving before installation, they can also be used immediately after.

All sealants can be used both internally and externally. We recommend using a paintbrush for internal projects.

OUR SEALANTS INCLUDE:

STANDARD OPTIONS

INVISIBLE

- Lasts for years.
- Additional UV resistance.
- Treated surface remains both air and water vapour permeable.

SATIN

- Satin finish.
- Additional UV resistance.
- Internal and external use.
- Non-hazardous.
- Treated surface remains both air and water vapour permeable.

BACK TO BLACK

- Colour enhancing.
- Additional UV resistance.
- Non-flammable.
- Non-toxic and non-hazardous.
- Environmentally friendly.

ULTRA OPTIONS

The Ultra product options provide our highest level of sealant protection, with superior stain repellent properties, that allow for a longer period of time before any spillages will soak into and stain the paving. This gives homeowners more time before they need to clean any spillages.

INVISIBLE ULTRA

- Highest level of protection.
- Lasts for years.
- Additional UV resistance.
- Internal and external use.
- Non-hazardous.
- Treated surface remains both air and water vapour permeable.

SATIN ULTRA

- Highest level of protection.
- Lasts for years.
- Additional UV resistance.
- Internal and external use.
- Non-hazardous.
- Treated surface remains both air and water vapour permeable.
- Protects against degradation and oxidization.
